 *Performance is annualized for periods greater than 1 year.

HCM All American Balanced Composite: *The HCM All American Balanced Composite typically seeks to participate in all markets and sectors by investing the portfolio in sectors HCM's PSR methodology indicates have potential to outperform, and protect assets during adverse market conditions through application of the HCM-BuyLine®. Multiple indicators are monitored to identify developing trends in the markets. The composite trades mutual funds including HCM affiliated mutual funds considered to have earnings growth prospects superior to that of the average companies within the custom benchmark. This model is balanced in nature with a strategic allocation of 65% equities and 35% multi-income. The portfolio is appropriate for investors with a time horizon of five to seven years. Risk level is considered moderate. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The HCM All American Balanced composite is compared against a custom blended benchmark comprised of 30% S&P 500 Index, 10% Russell 2000 Index, 20% MSCI ACWI ex USA (Net) Index, 40% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The HCM All American Balanced composite has a minimum of \$25,000. The HCM All American Balanced composite was created in December 2022 and incepted on December 31, 2022.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. For all periods, composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results. Returns include the reinvestment of all income. A sub-advisor was used for all periods presented.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

*Performance is annualized for periods greater than 1 year.

HCM ALP Conservative Composite: The HCM ALP Conservative Composite typically seeks to participate in all markets and sectors by investing the portfolio in sectors HCM's PSR methodology indicates have potential to outperform, and protect assets during adverse market conditions through application of the HCM-BuyLine®. Multiple indicators are monitored to identify developing trends in the markets. The composite trades mutual funds including HCM affiliated mutual funds considered to have earnings growth prospects superior to that of the average companies within the custom benchmark. This model is balanced in nature with a strategic allocation of 45% equities and 55% multi-income. The model attempts to combat unforeseen market declines utilizing a "stop-system" consisting of an initial stop out tranche that exits a poor performing investment, with subsequent walk-behind stops capable of liquidating the entire position when triggered. The portfolio is appropriate for investors with a time horizon of three to five years. Risk level is considered low to moderate. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The HCM ALP Conservative composite is compared against a custom blended benchmark comprised of 25% S&P 500 Index, 5% Russell 2000 Index, 10% MSCI ACWI ex USA (Net) Index, 60% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The HCM ALP Conservative composite was created in October 2018 and incepted on October 31, 2018.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income. A sub-advisor was used for all periods presented.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

HCM Horizon Bond Composite: The HCM Horizon Bond Composite utilizes HCM's Proactive Sector Rotation (PSR) methodology and seeks to primarily participate in domestic markets and sectors, but may occasionally hold international funds considered to have earnings growth prospects that are superior to that of the average companies within the custom benchmark. This model is conservative-oriented with a strategic allocation of 35% equities and 65% multi-income. The model trades multi-asset securities with an objective of total return. The model seeks to provide moderate long-term capital appreciation with an income component for conservative to moderate investors. This model typically contains holdings in both the equity and fixed-income markets. The portfolio is appropriate for investors with a time horizon of three to five years. Risk level is considered moderately conservative. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The HCM Horizon Bond composite is compared against a custom blended benchmark comprised of 25% S&P 500 Index, 5% Russell 2000 Index, 10% MSCI ACWI ex USA (Net) Index, 60% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The HCM Horizon Bond composite was created in October 2018 and inception on October 31, 2018.

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.

NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

* Performance is for a partial period from September 1, 2018 to December 31, 2018.

Period - As of 12/31/2025	Gross Returns	Net Returns	Custom Blended Benchmark Returns
1-Year	16.22%	14.21%	15.91%
5-Year	9.96%	8.05%	6.47%
Since-Inception	11.55%	9.62%	7.60%

*Since-inception performance is calculated for the period beginning September 1, 2018.

*Performance is annualized for periods greater than 1 year.

HCM ILP Balanced Composite: The HCM ILP Balanced Composite is diversified by security type, size, sector, and style. Potential portfolio investments for ILP Balanced are screened based on a number of key criteria, including, but not limited to 1) superior performance relative to peer groups over a number of years, 2) asset size, providing liquidity and maneuverability, 3) consistent fund management, and 4) relatively low expense ratios. The composite trades mutual funds, including HCM affiliated mutual funds, considered to have earnings growth prospects superior to that of the average companies within the custom benchmark. This model is balanced in nature with a strategic allocation of 65% equities and 35% multi-income. The model is designed for investors who seek a less active approach to investment management and have a longer investment time horizon to allow assets to grow. The portfolio is appropriate for investors with a time horizon of five to seven years. Risk level is considered moderate. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The HCM ILP Balanced composite is compared against a custom blended benchmark comprised of 30% S&P 500 Index, 10% Russell 2000 Index, 20% MSCI ACWI ex USA (Net) Index, 40% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The HCM ILP Balanced composite has a minimum of \$25,000. The HCM ILP Balanced composite was created in August 2018 and incepted on August 31, 2018.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. For all periods, composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results. Returns include the reinvestment of all income. A sub-advisor was used for all periods presented.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.

NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

* Performance is for a partial period from September 1, 2018 to December 31, 2018.

Period - As of 12/31/2025	Gross Returns	Net Returns	Custom Blended Benchmark Returns
1-Year	16.73%	14.71%	19.04%
5-Year	11.45%	9.52%	8.69%
Since-Inception	12.32%	10.37%	9.26%

*Since-inception performance is calculated for the period beginning September 1, 2018.

*Performance is annualized for periods greater than 1 year.

HCM ILP Growth Composite: The HCM ILP Growth Composite is diversified by security type, size, sector, and style. Potential portfolio investments for ILP Growth are screened based on a number of key criteria, including, but not limited to 1) superior performance relative to peer groups over a number of years, 2) asset size, providing liquidity and maneuverability, 3) consistent fund management, and 4) relatively low expense ratios. The composite trades mutual funds, including HCM affiliated mutual funds, considered to have earnings growth prospects superior to that of the average companies within the custom benchmark. This model is growth-oriented with a strategic allocation of 80% equities and 20% multi-income. The model is designed for investors who seek a less active approach to investment management and have a longer investment time horizon to allow assets to grow. The portfolio is appropriate for investors with a time horizon of seven to ten years. Risk level is considered moderately aggressive. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The HCM ILP Growth composite is compared against a custom blended benchmark comprised of 39% S&P 500 Index, 13% Russell 2000 Index, 28% MSCI ACWI ex USA (Net) Index, 20% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The HCM ILP Growth composite has a minimum of \$25,000. The HCM ILP Growth composite was created in August 2018 and incepted on August 31, 2018.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. For all periods, composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results. Returns include the reinvestment of all income. A sub-advisor was used for all periods presented.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment

management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

LSAM A&P Balanced Growth Composite: *The objective of the A&P Balanced Growth portfolio is to obtain moderate growth of capital with a tactical overlay. Under normal market conditions, the portfolio is invested in Exchange-Traded Fund allocations of domestic and international equities, alternative investments, bonds and money market funds. Based on market indicators the portfolio could be reinvested 100% to bonds, cash equivalents and cash to try and minimize market downturns. This portfolio is appropriate for investors with a time horizon of five to seven years. Risk level is considered to be moderate. Typical allocation: 55% - 65% equity + 35% - 45% fixed income + Cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM A&P Balanced Growth composite is compared against a custom blended benchmark comprised of 30% S&P 500 Index, 10% Russell 2000 Index, 20% MSCI ACWI ex USA (Net) Index, 40% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM A&P Balanced Growth composite was created in June 2025 and incepted on June 30, 2025.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.

NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

Period - As of 12/31/2025	Gross Returns	Net Returns	Custom Blended Benchmark Returns
1-Year	10.65%	8.73%	15.91%
5-Year	4.38%	2.57%	6.47%
10-Year	6.83%	4.98%	8.12%

*Performance is annualized for periods greater than 1 year.

LSAM Balanced Growth Composite: The objective of the LSAM Balanced Growth portfolio is to produce moderate growth of capital with a secondary objective of current income. Under normal market conditions, the portfolio is invested in mutual fund and Exchange-Traded Fund allocations of domestic and international equities and bonds, alternative investments and money market funds. This portfolio is appropriate for investors with a time horizon of five to seven years. Risk level is considered moderate. Typical allocation: 55% – 65% equity + alternative assets / 35% – 45% fixed income + cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Balanced Growth composite is compared against a custom blended benchmark comprised of 30% S&P 500 Index, 10% Russell 2000 Index, 20% MSCI ACWI ex USA (Net) Index, 40% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM Balanced Growth composite has a minimum of \$100,000. The LSAM Balanced Growth composite was created in December 2015 and incepted on December 31, 2015.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Prior to December 31, 2018 there was no significant cash flow policy in place. Additional information regarding the treatment of significant cash flows is available upon request. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.
 NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

Period - As of 12/31/2025	Gross Returns	Net Returns	Benchmark Returns
1-Year	18.94%	16.88%	12.12%
5-Year	12.06%	10.11%	12.43%
10-Year	10.48%	8.56%	10.83%

*Performance is annualized for periods greater than 1 year.

LSAM Equity-Income Composite: *The objective of the LSAM Equity-Income portfolio is growth of capital with an equally essential objective of current income. The portfolio seeks its objective by normally investing at least 90% of its assets in common stocks of global companies that have strong growth potential, and in addition, high sustainable dividend yields. This portfolio is appropriate for investors with a time horizon of ten years or greater. Risk level is considered to be aggressive. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Equity-Income composite is compared against the Dow Jones US Select Dividend Index. The LSAM Equity-Income composite was created in December 2015 and accepted on December 31, 2015.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the

calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The logo for Lifestyle Asset Management (LSAM) features the letters "LSAM" in a white, bold, sans-serif font, set against a dark red rectangular background.

LIFESTYLE ASSET MANAGEMENT

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

LSAM Growth Composite: The objective of the LSAM Growth portfolio is to obtain long-term capital appreciation. Under normal market conditions, the portfolio is invested in mutual fund and Exchange-Traded Fund allocations of domestic and international equities and bonds, alternative investments and money market funds. This portfolio is designed for investors seeking long-term growth with moderate risk and is appropriate for investors with a time horizon of seven to ten years. Risk level is considered to be moderately aggressive. Typical allocation: 75% – 85% equity + alternative assets / 15% – 25% fixed income + cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Growth composite is compared against a custom blended benchmark comprised of 39% S&P 500 Index, 13% Russell 2000 Index, 28% MSCI ACWI ex USA (Net) Index, 20% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM Growth composite has a minimum of \$100,000. The LSAM Growth composite was created in December 2015 and incepted on December 31, 2015.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Prior to December 31, 2018 there was no significant cash flow policy in place. Additional information regarding the treatment of significant cash flows is available upon request. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

Risk level is considered to be moderately aggressive. Typical allocation: 75% – 85% equity + alternative assets / 15% – 25% fixed income + cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM NW MF Growth composite is compared against a custom blended benchmark comprised of 39% S&P 500 Index, 13% Russell 2000 Index, 28% MSCI ACWI ex USA (Net) Index, 20% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM NW MF Growth composite was created in December 2018 and inceptioned on December 31, 2018.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS

standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

This portfolio is appropriate for investors with a time horizon of five to seven years. Risk level is considered moderate. Typical allocation: 55% – 65% equity + alternative assets / 35% – 45% fixed income + cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Retirement Income composite is compared against a custom blended benchmark comprised of 30% Dow Jones US Select Dividend, 10% Russell 2000 Index, 20% MSCI ACWI ex USA (Net) Index, 40% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM Retirement Income composite has a minimum of \$100,000. The LSAM Retirement Income composite was created in November 2016 and incepted on November 30, 2016.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Prior to December 31, 2018 there was no significant cash flow policy in place. Additional information regarding the treatment of significant cash flows is available upon request. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS

standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. For all periods, composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

LSAM SA Growth Composite: The objective of the LSAM SA Growth portfolio is to obtain long-term capital appreciation. Under normal market conditions, the portfolio is invested in Exchange-Traded Fund allocations of domestic and international equities and bonds, alternative investments and money market funds. This portfolio is designed for investors seeking long-term growth with moderate risk and is appropriate for investors with a time horizon of seven to ten years. Risk level is considered to be moderately aggressive. Typical allocation: 75% – 85% equity + alternative assets / 15% – 25% fixed income + cash The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM SA Growth composite is compared against a custom blended benchmark comprised of 39% S&P 500 Index, 13% Russell 2000 Index, 28% MSCI ACWI ex USA (Net) Index, 20% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM SA Growth composite has a minimum of \$50,000. The LSAM SA Growth composite was created in August 2018 and incepted on August 31, 2018.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM Total Return Balanced Growth - 50/50 Legacy GARP/All-Cap 30 Composite: The objective of the LSAM Total Return 60/40 50%GARP / 50%AC30 portfolio is to produce moderate growth of capital with a secondary objective of current income. Under normal market conditions, the portfolio is invested in diversified allocations of domestic and international equities and bonds, alternative investments and money market funds. This Total Return portfolio is customized on a client-by-client basis, and utilizes individual stocks, individual bonds, mutual funds and Exchange-Traded Funds, as well as other investments that are appropriate for meeting the objective of the portfolio. The portfolio is appropriate for investors with a time horizon of five to seven years. Risk level is considered moderate. Typical allocation: 50% - 70% equity + alternative assets / 30% - 50% fixed income + cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Total Return Balanced Growth - 50/50 Legacy GARP/All-Cap 30 composite is compared against a custom blended benchmark comprised of 30% S&P 500 Index, 10% Russell 2000 Index, 20% MSCI ACWI ex USA (Net) Index, 40% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM Total Return Balanced Growth - 50/50 Legacy GARP/All-Cap 30 composite was created in June 2024 and incepted on June 30, 2024.

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS

standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.

NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

* Performance is for a partial period from December 1, 2025 to December 31, 2025.

Period - As of 12/31/2025	Gross Returns	Net Returns	Custom Blended Benchmark Returns
Since-Inception	0.71%	0.56%	0.50%

*Since-inception performance is calculated for the period beginning December 1, 2025.

*Performance is annualized for periods greater than 1 year.

LSAM Total Return 70/30 Legacy Composite: *The objective of the LSAM Total Return 70-30 Legacy portfolio is to produce moderate growth of capital with a secondary objective of current income. Under normal market conditions, the portfolio is invested in diversified allocations of domestic and international equities and bonds, alternative investments and money market funds. This Total Return portfolio is customized on a client-by-client basis, and utilizes individual stocks, individual bonds, mutual funds and Exchange-Traded Funds, as well as other investments that are appropriate for meeting the objective of the portfolio. The portfolio is appropriate for investors with a time horizon of five to seven years. Risk level is considered moderate. Typical allocation: 60% - 80% equity + alternative assets / 20% - 40% fixed income + cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Total Return 70/30 Legacy composite is compared against a custom blended benchmark comprised of 30% S&P 500 Index, 10% Russell 2000 Index, 20% MSCI ACWI ex USA (Net) Index, 40% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM Total Return 70/30 Legacy composite has a minimum of \$500,000. The LSAM Total Return 70/30 Legacy composite was created in November 2025 and incepted on November 30, 2025.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. For all periods, composite policy requires the temporary removal of any portfolio incurring an aggregation of client-initiated significant cash inflow or outflow of at least 10% of portfolio assets. Additional information regarding the treatment of significant cash flows is available upon request. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.

NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

* Performance is for a partial period from May 1, 2017 to December 31, 2017.

Period - As of 12/31/2025	Gross Returns	Net Returns	Custom Blended Benchmark Returns
1-Year	11.02%	9.10%	12.65%
5-Year	5.16%	3.34%	4.53%
Since-Inception	5.08%	3.26%	6.20%

*Since-inception performance is calculated for the period beginning May 1, 2017.

*Performance is annualized for periods greater than 1 year.

LSAM Total Return Balanced Income Equity-Income Composite: *The objective of the LSAM Total Return Balanced Income Equity-Income portfolio is to produce current income with a secondary goal of moderate growth of capital. Under normal market conditions, the portfolio is invested in diversified allocations of domestic and international equities and bonds, alternative investments and money market funds. This Total Return portfolio is customized on a client-by-client basis, and utilizes individual stocks, individual bonds, mutual funds and Exchange-Traded Funds, as well as other investments that are appropriate for meeting the objective of the portfolio. The portfolio is appropriate for investors with a time horizon of three to five years. Risk level is considered low to moderate. Typical allocation: 20% – 50% equity + alternative assets / 50% – 80% fixed income + cash. The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Total Return Balanced Income Equity-Income composite is compared against a custom blended benchmark comprised of 25% S&P 500 Index, 5% Russell 2000 Index, 10% MSCI ACWI ex USA (Net) Index, 60% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM Total Return Balanced Income Equity-Income composite was created in April 2017 and inception on April 30, 2017.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the

variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.

LSAM Total Return Growth Equity-Income Composite: *The objective of the LSAM Total Return Growth Equity-Income portfolio is to obtain long-term capital appreciation. Under normal market conditions, the portfolio is invested in diversified allocations of domestic and international equities and bonds, alternative investments and money market funds. This Total Return portfolio is customized on a client-by-client basis, and utilizes individual stocks, individual bonds, mutual funds and Exchange-Traded Funds, as well as other investments that are appropriate for meeting the objective of the portfolio. The portfolio is appropriate for investors with a time horizon of seven to ten years. Risk level is considered to be moderately aggressive. Typical allocation: 70% – 90% equity + alternative assets / 10% – 30% fixed income + cash The strategy may experience losses as it is subject to market risk, interest rate risk, and other economic risks that may influence the returns of this strategy. The LSAM Total Return Growth Equity-Income composite is compared against a custom blended benchmark comprised of 39% S&P 500 Index, 13% Russell 2000 Index, 28% MSCI ACWI ex USA (Net) Index, 20% Bloomberg US Agg Bond Index. The custom benchmark is calculated by weighting the respective index returns on a monthly basis. The LSAM Total Return Growth Equity-Income composite was created in February 2023 and incepted on February 28, 2023.*

Lifestyle Asset Management, Inc. ("LSAM") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request.

LSAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. LSAM has been independently verified for the periods January 1, 2016 through December 31, 2025. The verification report is available upon request.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS

standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1.75%. The model fee is the highest investment management fee that may be charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The investment management fee schedule for the composite is 1.75%. Actual investment advisory fees assessed for new clients are at a linear rate of: 1.75% for households up to \$250,000; 1.55% for households between \$250,000 and \$500,000; 1.45% for households between \$500,000 and \$750,000; 1.35% for households between \$750,000 and \$1,000,000; 1.25% for households between \$1,000,000 and \$2,000,000; 1.05% for households between \$2,000,000 and \$3,000,000; 0.95% for households between \$3,000,000 and \$4,000,000; 0.85% for households between \$4,000,000 and \$5,000,000; and 0.75% for households over \$5,000,000.
